**DIANA SHIPPING INC. ANNOUNCES THE ACQUISITION  
OF A PANAMAX DRY BULK CARRIER**

ATHENS, Greece, December 28, 2009 – Diana Shipping Inc. (NYSE:DSX), a global shipping transportation company specializing in dry bulk cargoes, today announced that it has agreed to purchase from an unaffiliated third party the MV “Teresa Hebei”, a 2004 built Panamax dry bulk carrier of 76,436 dwt, for a price of US\$35.1 million. The vessel, to be renamed “Melite”, is expected to be delivered to the Company by the sellers during the end of January 2010.

Diana Shipping Chairman and Chief Executive Officer, Simeon Palios, commented: “Consistent with our strategy and our view regarding the dry bulk market, we have initiated our investment program which involves taking advantage of the growth opportunities presented during this low phase of the shipping cycle. As this program is implemented over the next two years, we believe that Diana will generate shareholder value through purchases of attractively-priced vessels, in accordance with our technical and age profile standards using our robust balance sheet and cash position, together with new debt as appropriate.”

**About the Company**

The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in

connection with this safe harbor legislation. The words “believe,” “anticipate,” “intends,” “estimate,” “forecast,” “project,” “plan,” “potential,” “may,” “should,” “expect,” “pending” and similar expressions identify forward-looking statements.

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, changes in demand for dry bulk shipping capacity, changes in our operating expenses, including bunker prices, drydocking and insurance costs, the market for our vessels, availability of financing and refinancing, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, vessels breakdowns and instances of off-hires and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
